50 Journals used in FT Research Rank

Laurent Ormans SEPTEMBER 12 2016

The Financial Times conducted a review in May 2016 of the journals that count towards its research rank. As a result, the number of journals considered went up to 50 compared to 45 previously.

The 200 odd business schools that take part in either the FT Global MBA, Executive MBA or Online MBA [rankings](#) were invited to submit up to five new journals to include and five journals to exclude from the previous list. A total of 140 schools submitted their votes, a response rate of 67 per cent.

Out of the 10 selected journals up for review, we decided to drop the four journals that each received 60 per cent or more of the votes: Academy of Management Perspectives, California Management Review, Journal of the American Statistical Association and RAND Journal of Economics.

Out of the 150 new journals suggested, the nine journals (*) with the most votes were added to the list.
